

Dear Sirs and Madams of the FCC Board:

I am writing today to urge the Board to reject NAB petition 04-160. When the traffic and weather information became available on XM radio, I was very excited to have traffic information for Dallas-Fort Worth on a continuous loop. In our area, heavy traffic is very common and especially problematic due to accidents or stalled vehicles. Because of XM, I am now able to get that information much quicker than I had in the past which allows me to find different routes much more quickly and stay out of accident areas/sites.

In addition to the the safety this provides me, I pay XM to receive this information. It is the idea of the marketplace which has made the United States strong. Please do not take away my right to pay for information that I want and need.

Regards,  
Kort J. Peters, Jr.
